Liquidity Lock: After coin launch, raydium LP lock in streamflow for 1 year which is compatible, Meteora permanent lock LP liquidity pool.

Project's Tags

Meme Coin, NFT, Web3, DeFi, Metaverse, Staking, Virtual Real Estate

One-liner description

From land to ledger — ENGH turns memes into legacy with real-world symbolism and digital ownership.

Detailed Project Description

The English House (ENGH) is a meme-fueled, community-powered digital currency launched on the Solana blockchain. Symbolically backed by a real-world 50-cent land plot, ENGH redefines meme coins by anchoring them to a physical story — blending humor, culture, and blockchain technology into a single narrative.

What makes ENGH stand out is its hybrid model: a token born from meme culture but evolving into a broader digital ecosystem. ENGH holders are not just investors in a meme coin — they are participants in a community-driven digital real estate revolution.

At the core of the project lies the Virtual English House, a 3D environment in development that will house rooms, items, and assets owned via NFTs. These NFTs aren't just collectibles — they represent ownership of specific elements of a digital house: from walls to gardens, and libraries to secret chambers. Monthly NFT airdrops to top holders reward loyalty and engagement, while early supporters gain access to exclusive Membership NFTs (only 100 exist).

Staking mechanisms allow users to earn passive rewards by holding ENGH, and NFT governance features will let users vote on decisions that shape the house's evolution. Future expansion will bring cross-chain compatibility (Ethereum, BNB Chain) and potential integration with platforms like Decentraland.

ENGH is not just a meme coin; it is a creative experiment in turning symbolic value into community-led digital legacy — proof that humor and heritage can co-exist on the blockchain.

Circulating Supply

TBD after presale

Max Supply

1,00,00,00,000 ENGH

Tokenomics/Distribution

- Liquidity: 40%
- Team: 15%
- Community & Marketing: 20%
- Development: 10%
- Reserve: 5%
